Ride on the Edge and you're bound to catch one Eliminator Racing had four 1st place finishes this weekend and plenty of carnage to have stories for years to come.

Todd Ellsworth started it off in his 50+ B/C class. He was 3rd or 4th into the first corner, after he missed a shift and found neutral. He was able to quickly recover and take over the lead on the 2nd lap and never looked back, taking the checkered flag and the win!

It's not a matter of if but when!

They say if you're not crashing you're not riding hard enough.

Rick, Donna and Michael were next up on Saturday afternoon. Rick missed a shift on the start but was able to recover in the 2nd corner where he took over the lead. He was straight hauling the mail and would finish 1st place in and the only one in his class to get 6 laps, he also finished 7th overall!

Donna took the Holeshoot in Women's A and would lead for most of the first lap before getting passed. She would go on to finish 3rd.

Michael raced the Open B class and was charging hard when he hit a huge rock which caused his nerfbar and foot peg to break off. He tried to keep up with race pace, with no where to put his right foot, and came in too hot to a corner and flipped over the berm with the quad pinning him on the ground. He was able to army crawl out and limp it in for a finish!

Next up is Round 2 of The Big 6 Series this weekend in Taft, CA

Sunday morning Rick was pushing hard and had a knarly get off causing a huge laceration on his arm, he was able to get a finish. He's all stitched up and ready for battle. Have to love our never quit mentality!

Donna got the Holeshoot in her 30+A class and never looked back. Michael also won his 30+B class. They both won by over two minutes on second place! Todd finished 4th in his 30+B class. Great weekend for Eliminator Racing!
