Cody Yanishewski #739

I had a very successful weekend placing 1st in Pro and 1st in Pro AM, despite the rain and mud. After having morning moto's cut due to weather conditions, the racing resumed in the afternoon for single moto's in each class. After pulling a holeshoot in Pro moto, and nearly bumped off the track, I recovered and passed the next lap for first and finishing in the number one spot.

Pro Am Moto went well, getting second out of the holeshoot and making the pass in the first few corners, advancing ahead to a generous lead.

The race did not go exactly like I had hoped, going down in the Pro moto holeshoot, setting me well behind. Despite the unfortunate start, I charged hard to make up a couple positions to finish 4th overall.

Pro Am moto went better, until running into mechanical difficulties. After having a better holeshoot, but ran into electrical problems. I was able to pull off a 3rd overall.

We will be heading to round 2 in Cold Lake on July 25th and plan to be on

Huge shout out to our sponsors: Elka Suspension, VP Racing Fuels, Spy Optics, Redline Power Craft, Walsh Racecraft, Fourwerx Carbon

This wouldn't have been possible without you!
